

HR90080C

## Spring Rewind Diesel Fuel Hose Reel - 10m x 19mm ID

February 2021

The EL Series HR90080C spring rewind diesel fuel hose reel is a low pressure reel supplied with 10m x 19mm ID NBR rubber hose suitable for diesel fuel applications in commercial vehicle workshops, food processing, bottling plants, manufacturing facilities, pulp & paper manufacturing, minesite workshops, service vehicles and oil & gas facilities.

The hose reel drum is sturdy and practical with stiffening ribs for product longevity & flanged edges for operator safety.

The positive latching mechanism automatically locks the hose assembly at the desired length & the adjustable arms allow for floor, wall or ceiling mounting according to needs.

The EL Series HR90080C spring rewind diesel fuel hose reel from Alemlube will provide you with a reliable & cost effective means of storing and retrieving hose assemblies in your workshop.

The modern patented EL Series HR90080C spring rewind diesel fuel hose reel is a highly cost effective, and at the same time robust & durable, hose storage & retrieval solution.

## SPECIFICATIONS, FEATURES AND BENEFITS

- Reinforced steel mounting frame provides maximum strength & stability
- Working pressure of 145psi (10bar)
- Includes 10m x 19mm ID NBR rubber hose, hose stop and auto shut-off nozzle
- 1.2mm lead in hose supplied standard (not depicted)
- 1.5mm thick robust drum assembly with stiffening ribs & flange edges
- Can be mounted on the floor, wall or ceiling
- Improves operator safety
- Black non corrosive plastic cover ensures operator safety
- New innovative latching solution enables the hose to be stopped in multiple positions as required
- Effortless and smooth hose extraction & retrieval
- Hose return constant speed rewind control device enhances operator safety
