SIMPLIFYING STOCK MANAGEMENT

MaxiPARTS Inventory Management lets you focus on the areas in your business that generate revenue while we take care of your parts.

INVENTORY MANAGEMENT SYSTEM

MaxiSTOCK simplifies administration and inventory management, reducing concerns around vehicle downtime, and providing you with the monthly/daily usage and fleet data.

- No cost to your business
- Fully automated
- Stand-alone system, no IT integration required
- Simple and flexible
- No long-term commitments required

HOW DOES IT WORK?

- Your MaxiPARTS sales representative will work with you to stock and barcode your shelves with the parts you need and set your min/max stock level data
- Scan parts used
- Usage is electronically sent to MaxiPARTS
- Replenishment orders are generated, invoiced, and delivered
- Customised usage reports are supplied

THE SYSTEM CAN BE AS SIMPLE OR ADVANCED AS YOU LIKE

WHAT CAN IT SCAN?

JOB NUMBER

MANAGER'S NAME

VEHICLE NUMBERS

PURCHASE ORDER
NUMBER

BASIC SYSTEM SETUP

- Your MaxiPARTS sales representative can manage your parts usage and stocktake for you
- No need for customer to retain scanning gun

ADVANCED SYSTEM SETUP

- You can scan parts used, selecting what information you would like reported (e.g. truck number, rego, job number, etc.)
- Track parts to jobs, vehicles, purchase orders, etc. Reports are fully customised with as little or as much information as you want
- Stocktake your available parts
- Receive parts into stock
- Generate parts purchase orders in addition to auto generated stock replenishment
